ROLL NO: 240701568

ASSIGNMENT – 02

Vehicle Service Request Form (Advanced) Advanced Fields Use Case

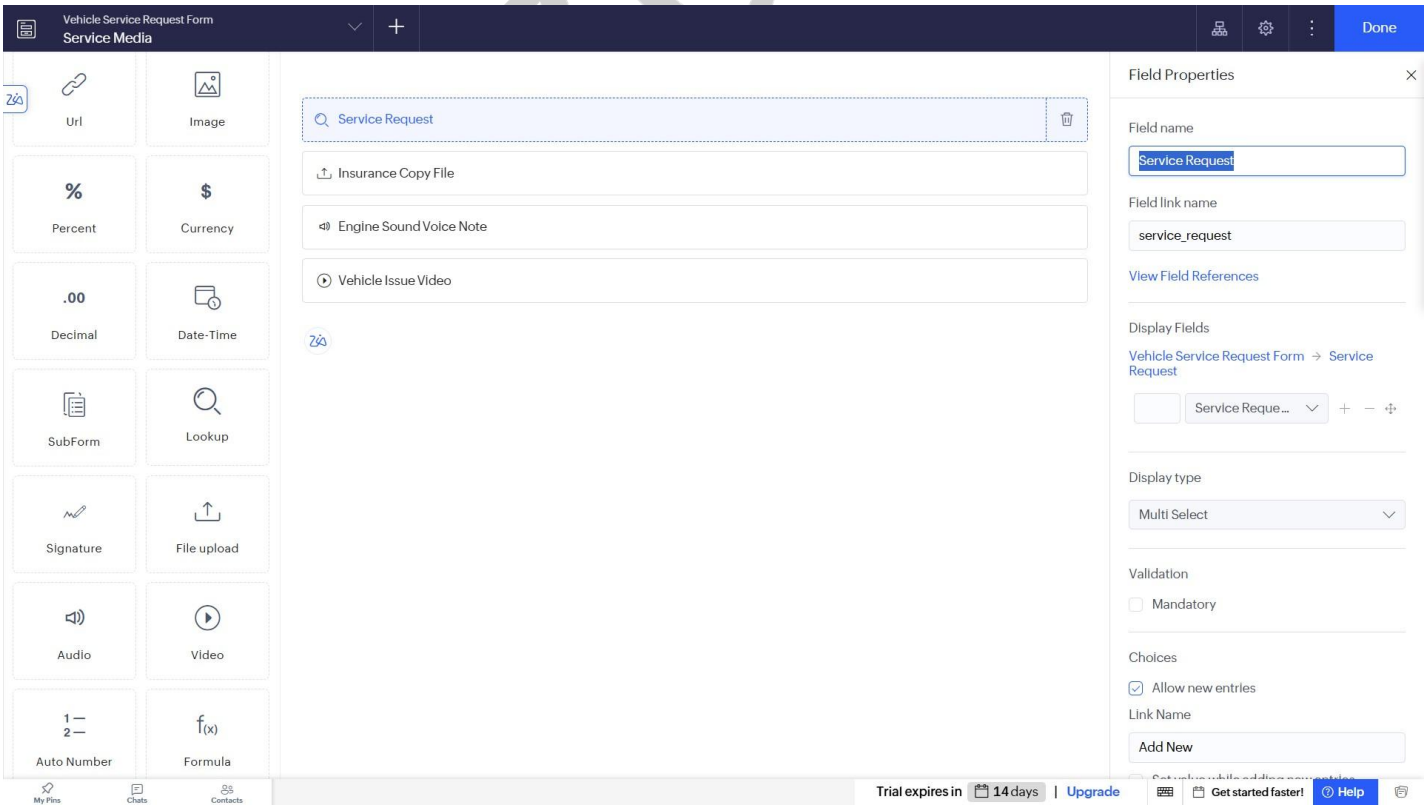

Objective:

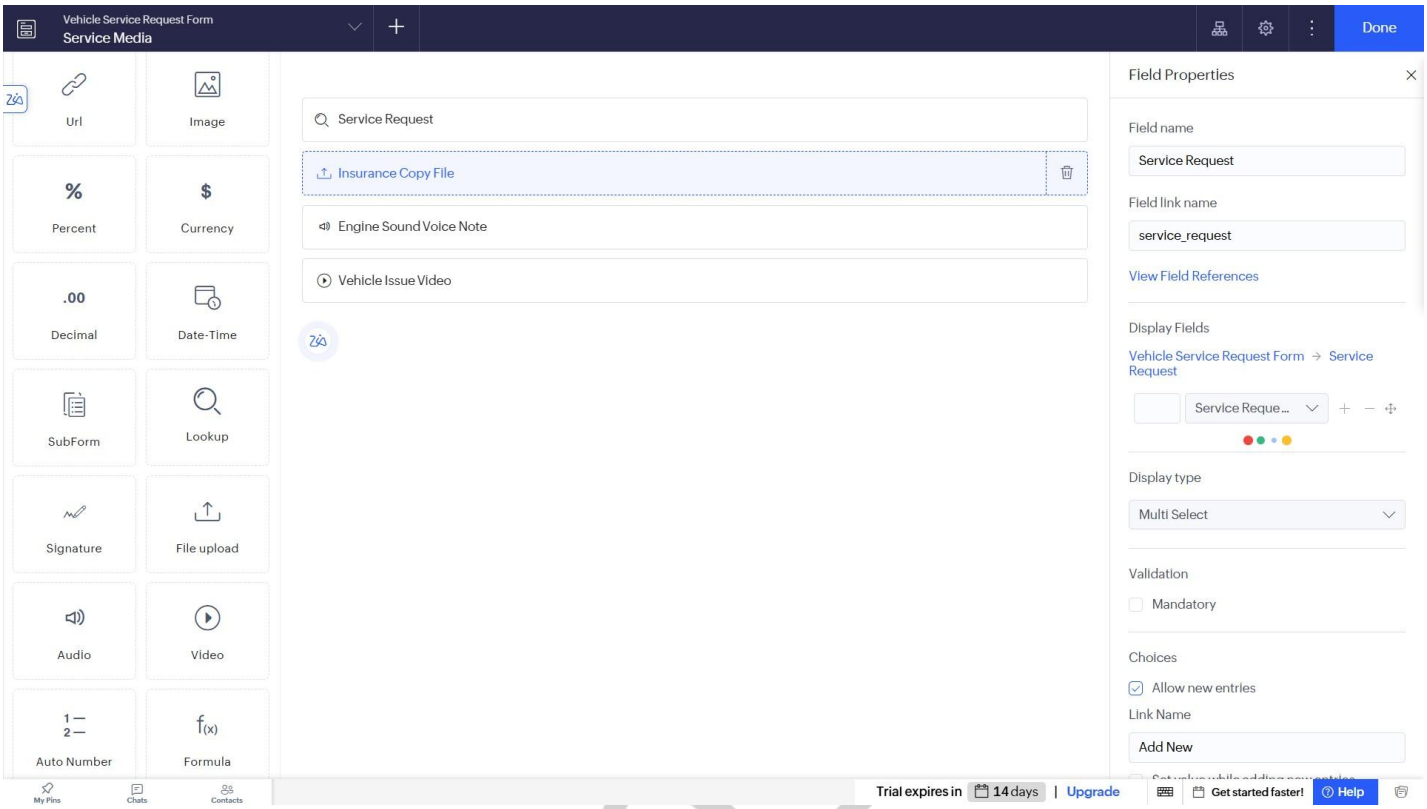

To extend the existing "Vehicle Service Request Form" application in Zoho Creator by incorporating all seventeen Advanced Fields available in the Form Builder, so that the form moves beyond basic data capture and demonstrates automation, computed values, file/media handling, and structured lookups within a real automobile service-center use case.

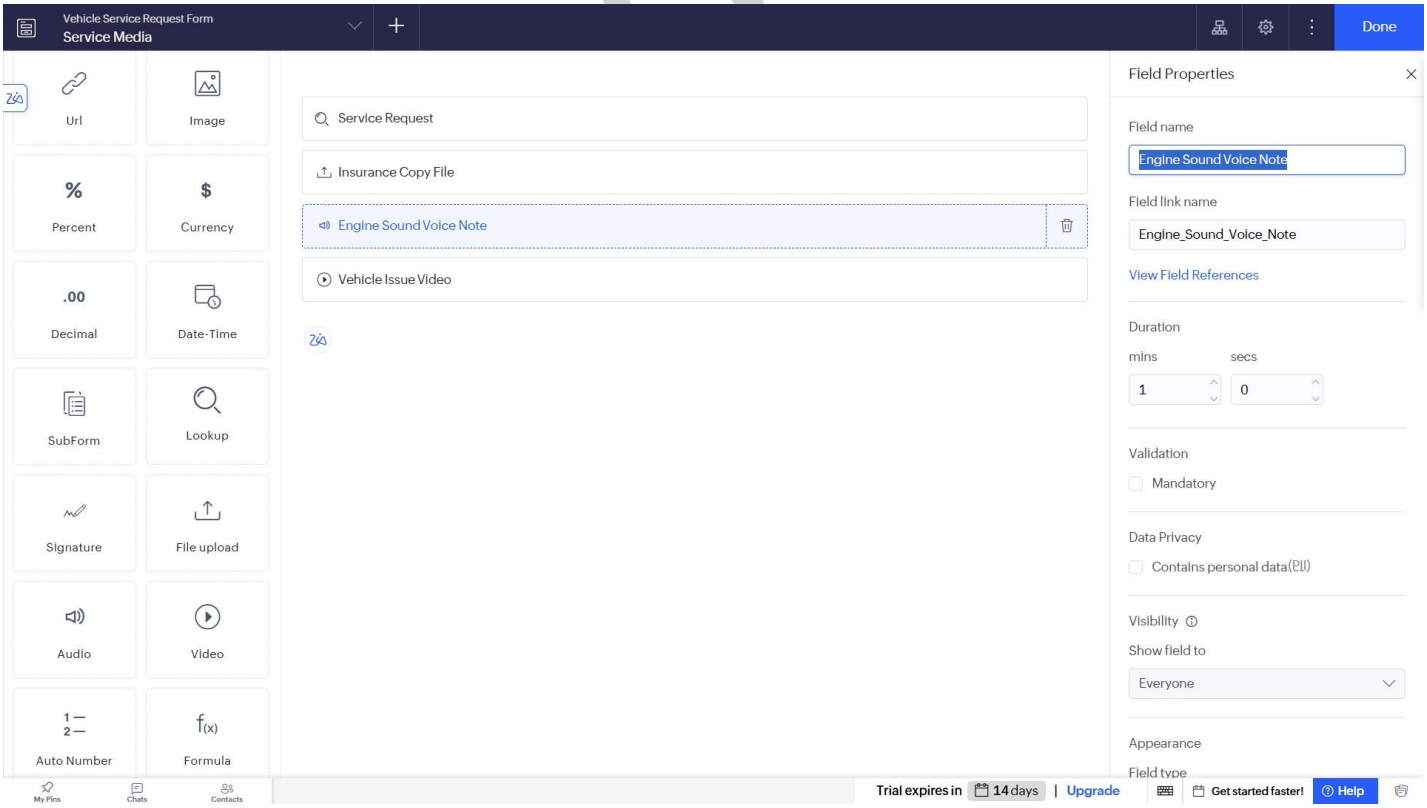

Procedure:

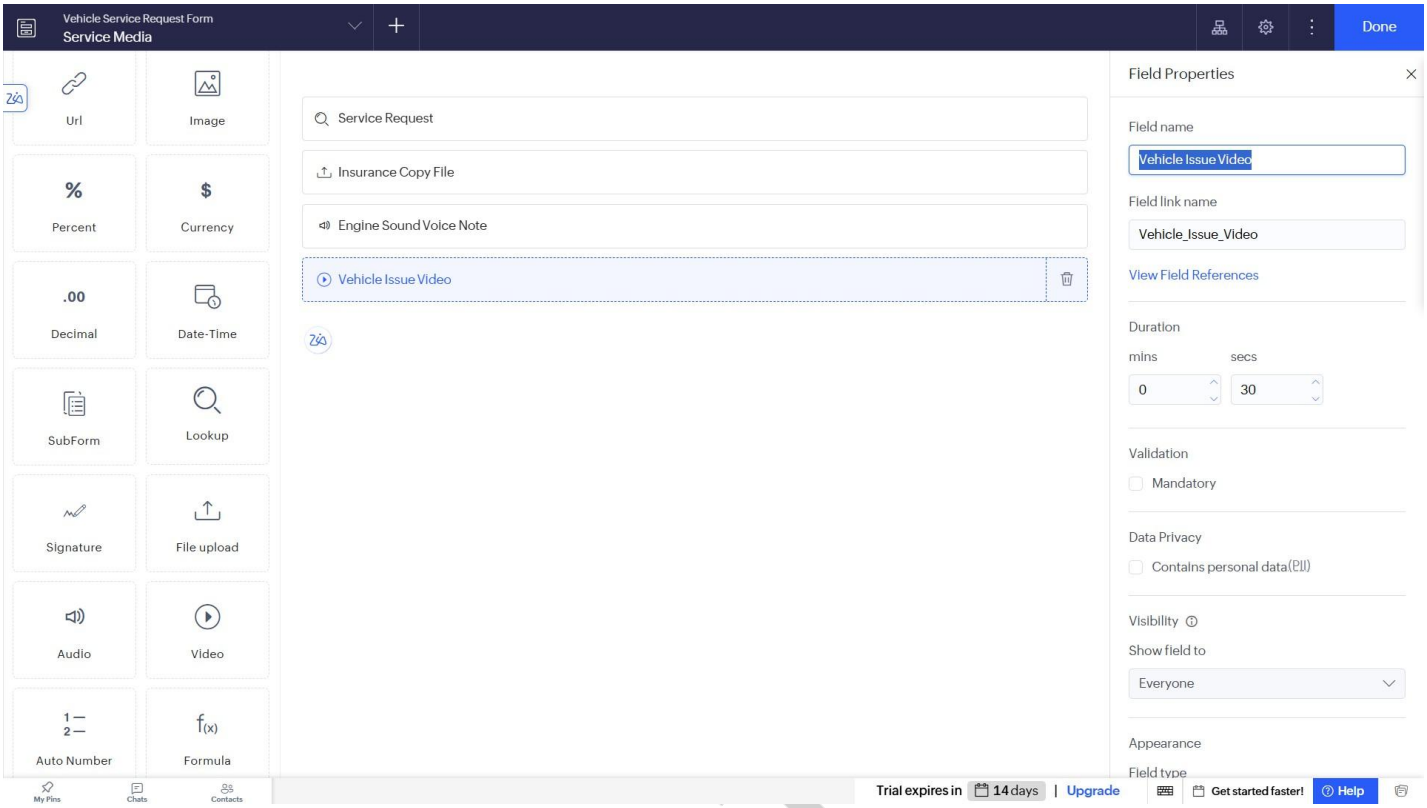

1. Vehicle Verification & Evidence:

Add a Lookup field for "Vehicle Model Lookup" connected to a master Vehicle Models form. Add an Image field for "Vehicle Damage Photo" (restricted to JPG/PNG, max 2MB), a File Upload field for "Insurance Copy Upload" (restricted to PDF/JPG/PNG, max 5MB), and a Decimal field for "Vehicle Age in Years".

2. Service History & Media Details:

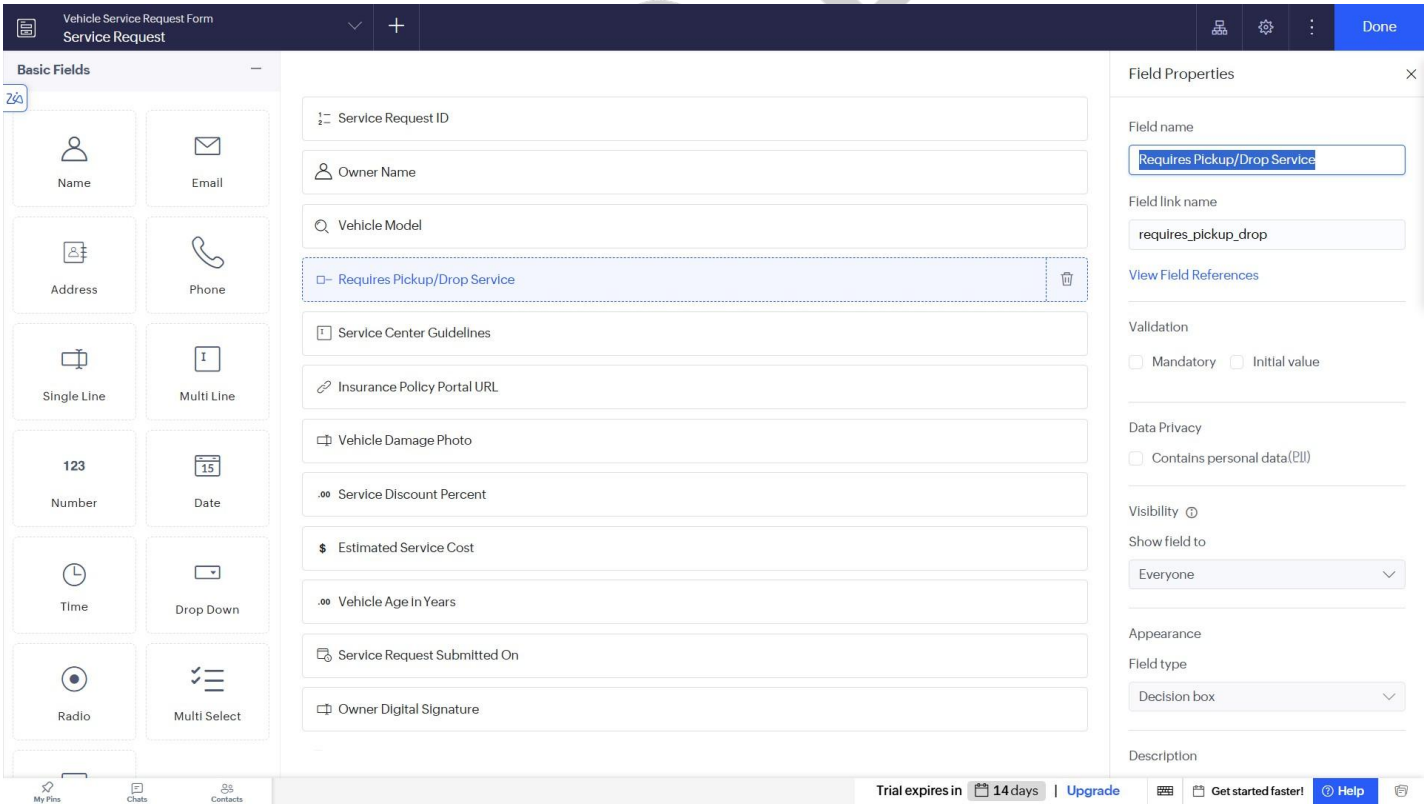

Configure a SubForm for "Previous Service History" (allowing 0-10 rows). Add a URL field for "Insurance Policy Portal URL", an optional Video field for "Vehicle Issue Video" (max 45 secs, 50MB), and an optional Audio field for "Engine Sound Voice Note".

3. Cost & Pickup Preference:

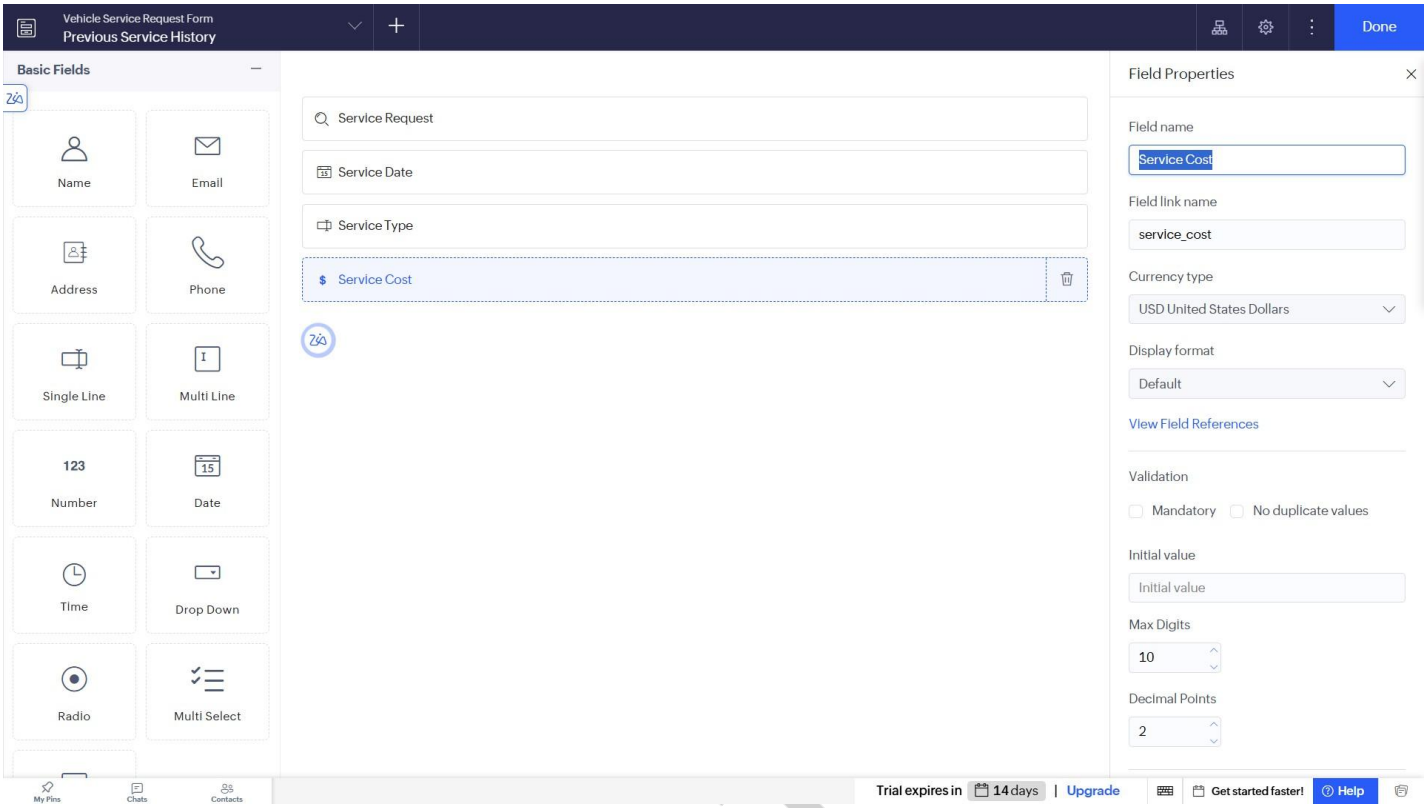

Add a Decision Box for "Requires Pickup/Drop Service" (mandatory). Include a Currency field for "Estimated Service Cost" (non-negative INR) and a Percent field for "Service Discount Percent" (range 0-25). Configure a read-only Formula field to automatically compute the "Net Service Cost Payable".

4. Authorization & System-Generated Values:

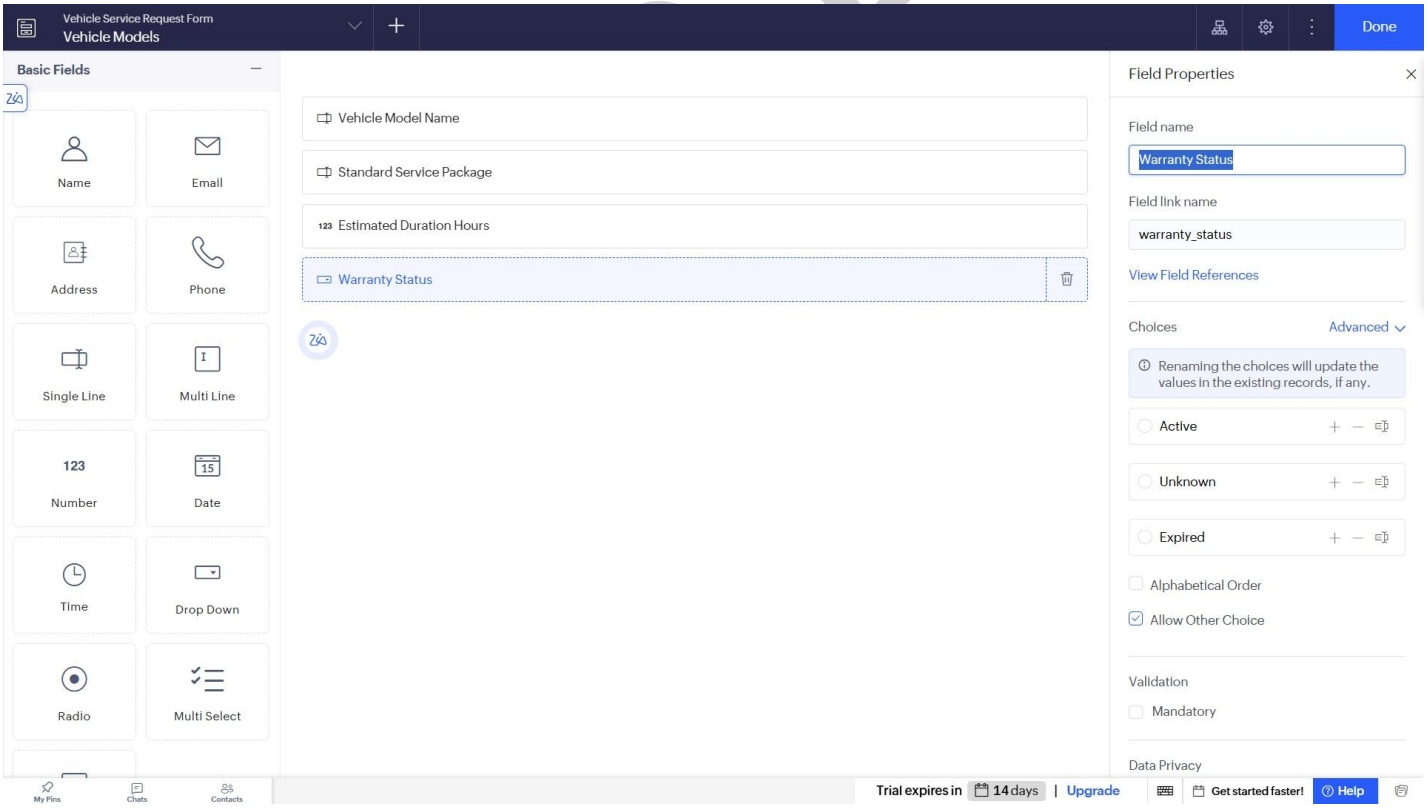

Add a Rich Text field for "Service Center Guidelines Display". Include a mandatory Signature field for "Owner Digital Signature". Configure a Date-Time field to auto-capture "Service Request Submitted On", an Auto Number field for "Service Request ID" (prefix SVC-REQ-YYYY-), and a QR/Barcode field for "Service Tracking QR Code".

5. Live Form Preview & Logic Validation:

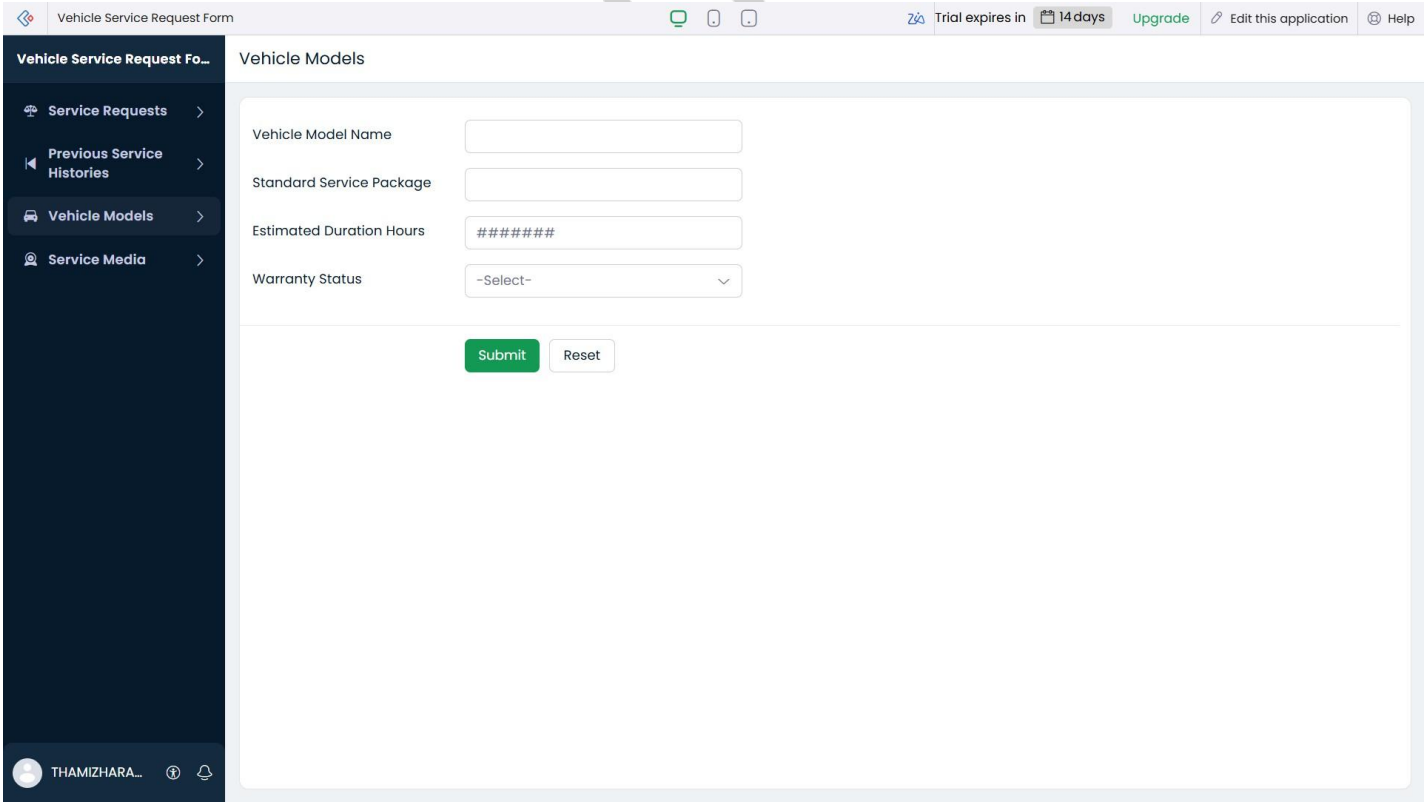

Open the live form preview. Test the Vehicle Model Lookup to ensure it fetches data from the master form. Verify that the Formula field dynamically recalculates the Net Service Cost when

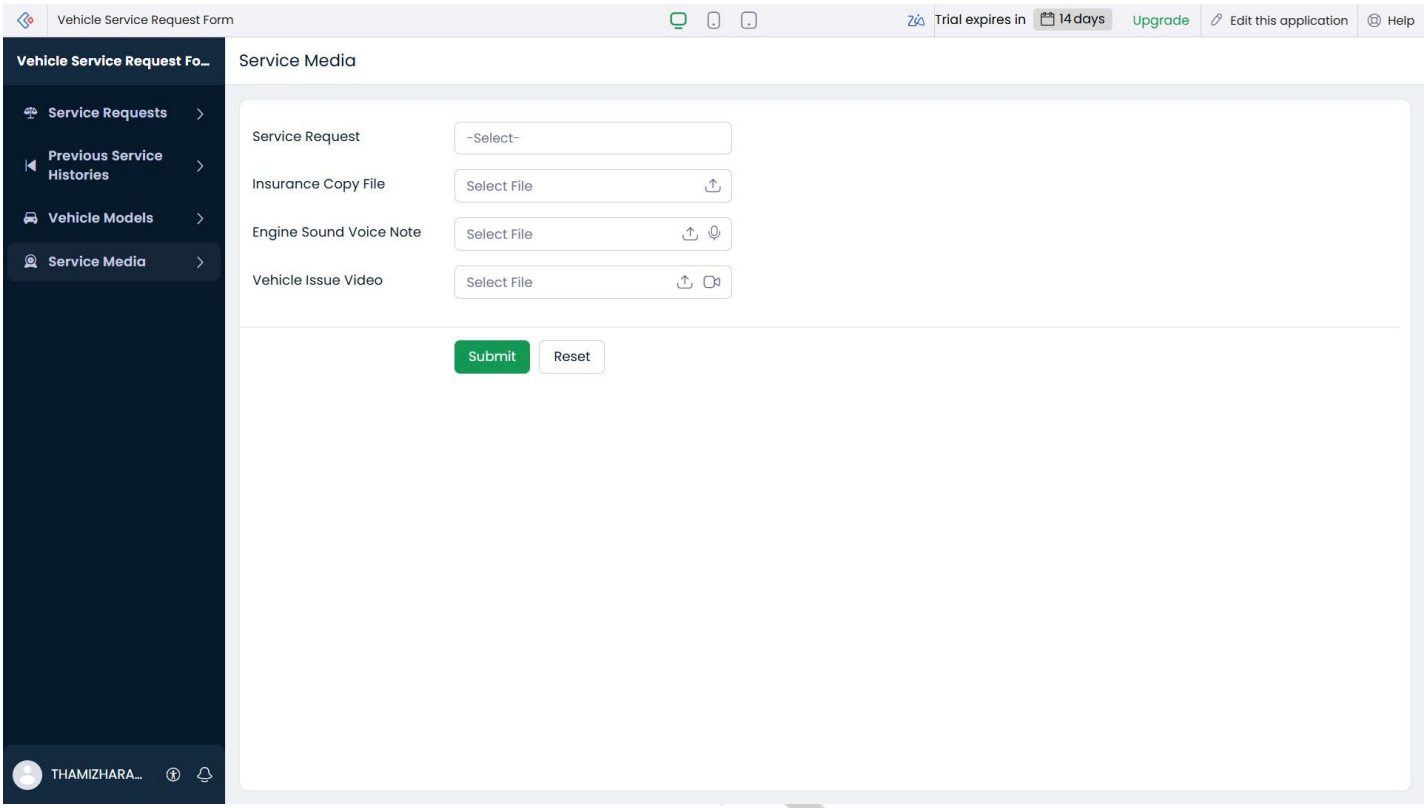

the estimated cost or discount changes, and ensure the SubForm accepts multiple rows of service history.
